

# Trust Systems & Software (I) Pvt Ltd

Trust Systems & Software, India is CMMi Level 5 Certified and ISO 27000 Certified Company.

## Loan Management

Modern, Superior technology crafted to automates loan process. We have emerged as #1 Loan Management Solution globally. The comprehensive loan management solution facilitates banks and financial institutions to automate the procedures for achieving cost savings and better customer experience. We deliver tech enabled lending processes that improve productivity and customer service through the entire loan lifecycle.

Solution enables financial institution to independently manage all elements of processes, user screening, documents management and business parameters. Its configurability decreases the time of implementing changes products and other relevant process. Modules complements the process management functionalities and are completed at various stages of the credit process. It has rich workflow management for loan integrated seamlessly into end-to-end lending process.

# KEY ADVANTAGES

## 1. Loan Approval Automation

Configurable mechanism takes account to follow systems and regulations that has pre-defined. Customer's financial standing, credit scoring, verifications done automatically.

## 2. Process Management

Validating correctness of process. Adding business rules and assigning specific tasks and privileges to user and administrators based on their roles and rules.

## 3. Document Management

Configuration of pre-defined templates. Modification of existing documents. Save and prints relevant documents at ease. Module allows attaching digitized documents linking with customer account which get archived in repository and are available for later processing.

## 4. Configuration Management

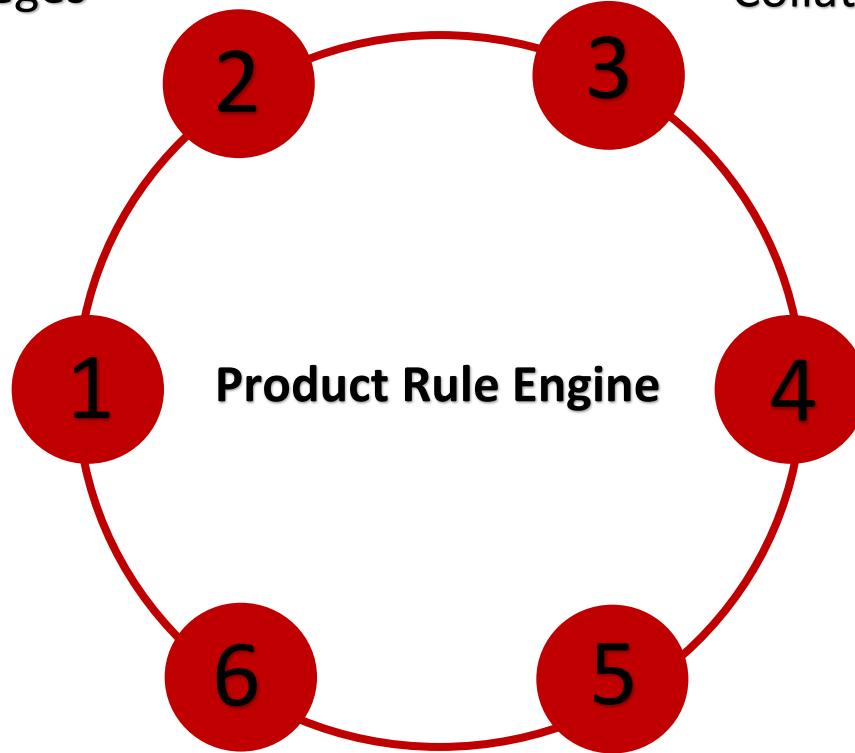

It supports configuration of services that can be called from credit process steps. The configuration is done using a graphical interface in a very intuitive way, which makes it possible for non-technical users to carry out tasks seamlessly.

## 5. Accounting Management

Complete loan portfolio account, personalized account rules, integrated chart of account. Automated tax configurations. It also allows tracking liabilities and assets.
